

WHISPERS (Fairground Attraction)

Listen to the song. Fill in the gaps so that you write a word instead of the picture.

The way she whispers

The stories I have heard

In captivation my  are wide with her words

So much respect in here

My  is blowing up to burst

With one  forward

She leads me by the  _____

I think I'll make it

Through  up in the sky

They show we're all the same

And some day soon they say we all must die

Chorus: Tell them all

Wrap them up in  _____

With your  _____

Here I am

Somebody told me

The answer's in the  _____

Grab all you can

Take everything in sight

Don't care if I sit here forever

Holding nothing but my  _____

She whispers to me

"It makes no difference

You get what you give

And only then just enough

To make you happy no more no less

Too much is too absurd"

CHORUS

She speaks in silence

Her work is never done

But still goes on 'til

The battle she has won

But for a moment I thought I saw her

Dancing in the  _____
