It'll go to the Moon.	We won't travel by car.	Will they fly in a rocket?

1. Read the text

In the future we won't drive on roads and motorways. We'll use carplanes, which will fly three metres above the ground. These will carry six people. They won't have a pilot because a computer will fly them. There'll be a small round table and six armchairs with cushions inside, like a small living room. There'll be TV and computer screens to watch our favourite films or chat on the internet. There won't be any normal doors. The sides of the carplane will open by moving slowly down under the floor of the car. There won't be any maps and we'll never get lost because carplanes will always know where to go.
