

FRACCIONES CON DISTINTO DENOMINADOR.

Escribe la fracción y el número decimal que representa cada gráfico.

$$\rightarrow \frac{\quad}{\quad} = 0,8$$

$$\rightarrow \frac{1}{10} = \dots\dots\dots$$

$$\rightarrow \frac{34}{100} = \dots\dots\dots$$

$$\rightarrow \frac{\quad}{\quad} = 0,73$$

$$\rightarrow \frac{\quad}{\quad} = 0,6$$

$$\rightarrow \frac{10}{10} = \dots\dots\dots$$

$$\rightarrow \frac{31}{100} = \dots\dots\dots$$

$$\rightarrow \frac{\quad}{\quad} = 0,69$$

Escribe el número decimal que representan estos gráficos y después compara.

_____ > _____

_____ > _____

_____ > _____

_____ > _____
