Home sweet home

We live on a farm in the countryside. We're a big family - Mum, Dad and four children. My grandmother lives with us and my aunt and uncle live in a village 10 kilometres away. We haven't got any friends near us and our school is 20 kilometres away. In winter there aren't many people around. I like the summer because people come to work on the farm to pick fruit and it's more fun.

I live in a house in the suburbs. I really like it here. There are always lots of young people and children around so I'm never bored. I've got a lot of friends in the street and I know everyone. It's quiet and safe so the children can play outside.

I live in a block of flats in a big city. There are a lot of neighbours around me. I know their names and we say hello. If you have a problem they help you. Everyone is nice except for the concierge. He is very unfriendly. But I don't really know anyone in the block very well. They're neighbours but not friends.
