

MATEMÁTICAS

DIVISIÓN EXACTA E INEXACTA

- Resuelva las siguientes operaciones matemáticas.

1

38	÷	4	=	

Es una división: _____

Comprobación

2

59	÷	6	=	

Es una división: _____

Comprobación

3

64	÷	8	=	

Es una división: _____

4

29	÷	3	=	

Comprobación

Es una división: _____

- Observa y escribe en los recuadros los términos de la división.

5

Cociente Residuo Dividendo Divisor

The illustration shows a man and a green robot holding a large yellow board. On the board, the division problem $15 : 5 = 3$ is written. Below it, the subtraction -15 is shown, followed by a horizontal line and the number 0 . Four empty boxes with green borders are placed around the problem: one above, one to the left, one to the right, and one below. Red arrows point from each box to the corresponding part of the division: the top box points to the dividend (15), the left box points to the divisor (5), the right box points to the quotient (3), and the bottom box points to the remainder (0).
