Dear Peter, Thanks for taking interest in the weekend event organised by <i>Nature First</i> . You asked us about the nature reserve where the event will be held from 4 <sup>th</sup> –6 <sup>th</sup> July. The reserve is a huge area of forest, with lots of interesting geographical features, including a range of mountains, with some deep valleys, rivers and a freshwater lake. Because of the large number of animals living here in the wild, visiting the reserve is only possible in groups led by one of the park rangers.

You also asked about the programme of the event. I include a link to our website where you can find more details about the weekend activities. I hope you find this information useful and you'll join us.

Hi Robert,

I've just got an email from *Nature First* about the weekend event we'd like to go to (1) \_\_\_\_\_ of July. The reserve is an interesting place and if we're lucky, we might see (2) \_\_\_\_\_ which live there. The weekend programme sounds good, too. After we arrive there on Friday, we can (3) \_\_\_\_\_ some experts who will present some important issues. There will be (4) \_\_\_\_\_ and the results will be given on Sunday. Who knows? Maybe, we'll win a prize? So, I guess we're coming, aren't we?

Write back,

Peter

### MOVING HOUSE MADE EASY

Moving house can be a stressful experience. It might make you quite sad. **8.1.** \_\_\_\_ It also involves lots of work with packing and making the necessary arrangements. Here are some practical tips to make the situation a bit easier.

- Start packing as early as possible. Once you know the date, you can start packing your belongings.

**8.2.** \_\_\_\_ Find some empty space in the garage or the attic where you can put it.

- Put labels on the boxes to know exactly what's inside them. **8.3.** \_\_\_ Either you describe the type of items in the boxes, or you may decide to write down which room they came from. Either way, this will make the unpacking business much easier.
- Sell or throw away unnecessary things. Over the years you probably have collected lots of things that you do not actually need or use. **8.4.** \_\_\_ Look through such items and decide if you can sell them or you need to throw them away.
- Last but not least – find a reliable removal company. A professional service will make the whole thing easier and much less stressful.

- A** Of course, it's a good idea to begin with the stuff you rarely use.
- B** Moving house is an opportunity to create more space in your new house.
- C** It isn't usually cheap but it's worth the money.
- D** After all, you need to leave your old life and friends behind.
- E** You can do that in two different ways.

**Science websites with a difference**

There are hundreds of websites about science on the web. We have chosen three which might be worth visiting.

**A**  
[www.science\\_made\\_easy.com](http://www.science_made_easy.com)  
 is specially designed for the younger audience. It explains some scientific problems in an easy way and includes lots of practical examples. It's also easy to navigate and has plenty of pictures and animations to show how things work. The website is an ideal place to inspire some scientific curiosity in young kids.

**B**  
 If you're looking for a science website which is not very serious, try [www.science\\_funfiles.org](http://www.science_funfiles.org)  
 It contains a collection of anecdotes and stories about scientists and their experiments which prove that even the smartest people can be quite silly at times. It also shows us how many important discoveries and inventions were made by chance!

**C**  
[www.science4U.com](http://www.science4U.com) is neither very simple or humorous. It's full of complex and detailed explanations of various scientific areas, with occasional graphics where necessary. A unique feature is the question box where visitors can post a question which will be answered by a specialist in the field. Perfect for older students looking for materials for their science projects.

**This website**

- 1** can easily make you laugh. \_\_\_\_\_
- 2** allows you to contact real scientists. \_\_\_\_\_
- 3** has more graphics than text. \_\_\_\_\_
- 4** can be a useful source for schoolwork. \_\_\_\_\_
