

he found a coin

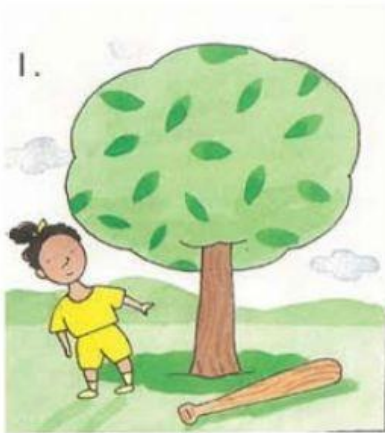

he found a comic book

She found a bat

they found a kite

they found a ball

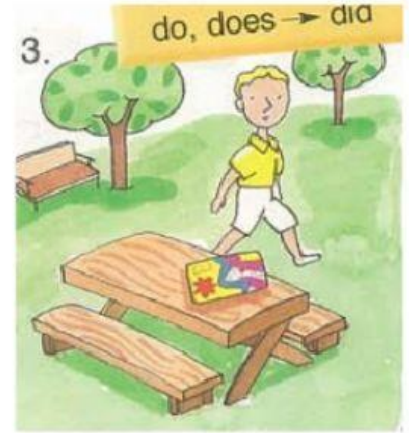

she found a watch

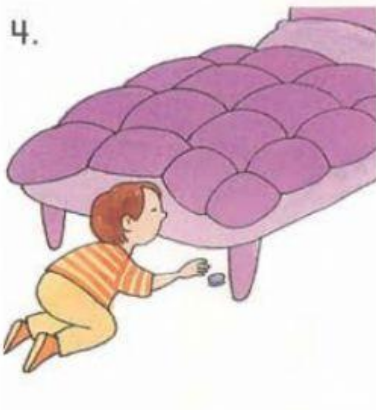

What did she find?

What did they find?

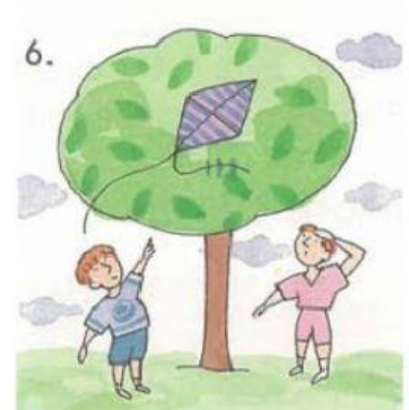

What did he find?

What did he find?

What did she find?

What did they find?

it was on a puddle

it was on a tree

it was on a table

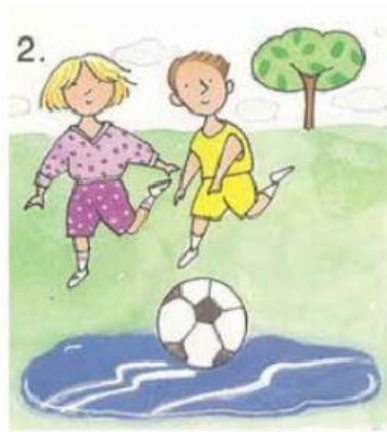

it was under the bed

it was on a chair

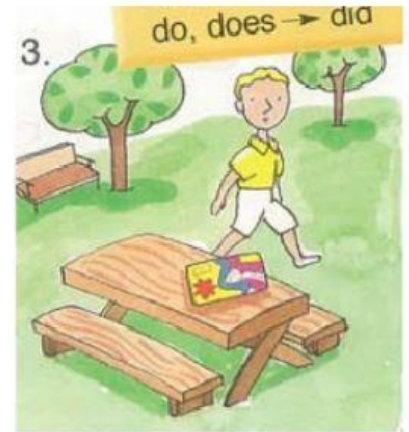

it was under a tree

where was it?

where was it?

where was it?

where was it?

where was it?

where was it?
