Nombres y Apellidos:

1. Arrastra cada nombre donde corresponda

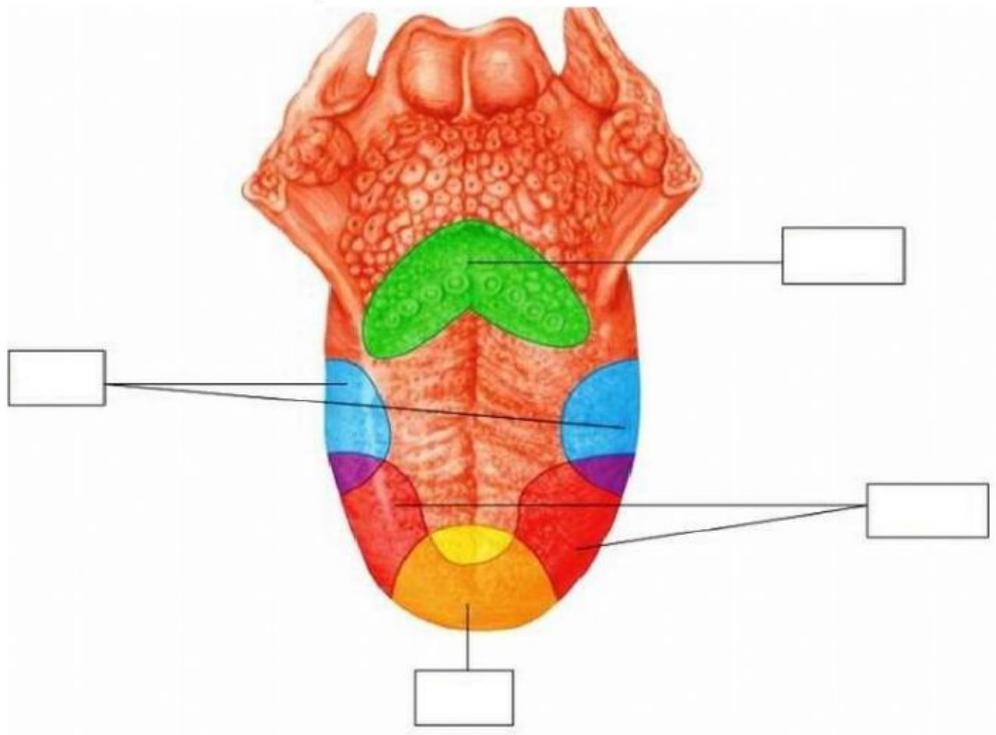

- PUPILA** **CRISTALINO** **RETINA** **IRIS** **NERVIO ÓPTICO** **CÓRNEA**

2.- Completa los nombres que faltan

3.- Arrastra la respuesta

The diagram shows the tongue with several color-coded regions: a green area at the back (epiglottis), blue areas on the sides (lateral sulci), a purple area at the base (root), a red area at the tip (apex), and a yellow/orange area at the very tip (filiform papillae). Lines connect these regions to empty boxes for labeling.

The diagram is a sagittal cross-section of the human mouth. It shows the tongue, the hard and soft palate, the uvula, the pharynx, and the larynx. There are five empty boxes with lines pointing to specific anatomical features: one at the top (uvula), one on the right side (pharynx), one on the left side (soft palate), one at the bottom (larynx), and one on the left side (hard palate).

5.- Relaciona cada hueso con su nombre:
