

## RIGHT TRIANGLE AREA SHEET 2

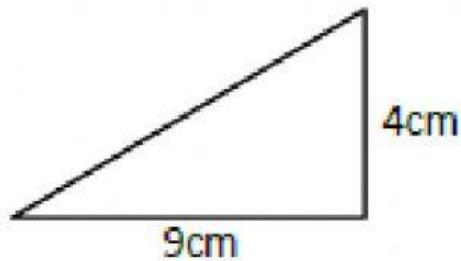

Work out the area of the following right-angle triangles.

They are not drawn to scale.

1)

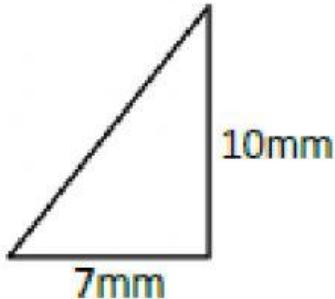

2)

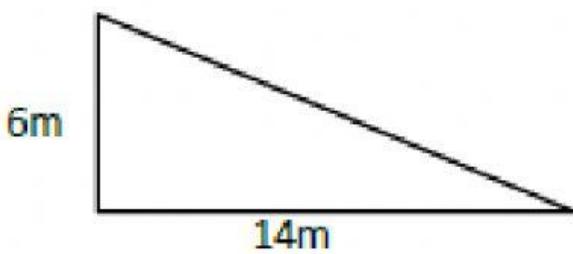

$$\text{Area} = \underline{\hspace{2cm}} \text{ mm}^2$$

$$\text{Area} = \underline{\hspace{2cm}} \text{ cm}^2$$

3)

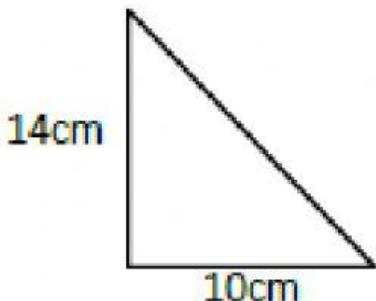

4)

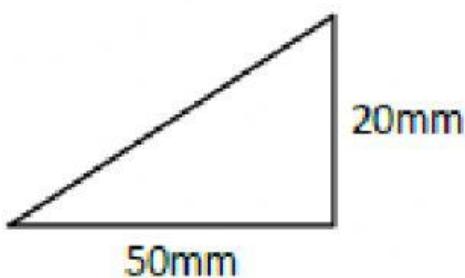

$$\text{Area} = \underline{\hspace{2cm}} \text{ mm}^2$$

$$\text{Area} = \underline{\hspace{2cm}} \text{ m}^2$$

5)

6)

$$\text{Area} = \underline{\hspace{2cm}} \text{ cm}^2$$

$$\text{Area} = \underline{\hspace{2cm}} \text{ mm}^2$$

**Handy hint:**

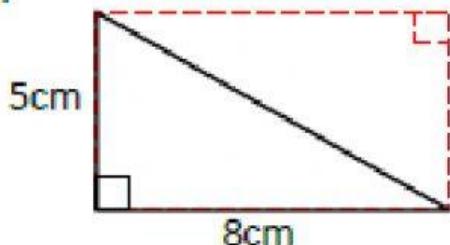

*The formula for the area of a triangle is  $\frac{1}{2} \times \text{base} \times (\text{perpendicular}) \text{ height}$*

## RIGHT TRIANGLE AREA SHEET 1

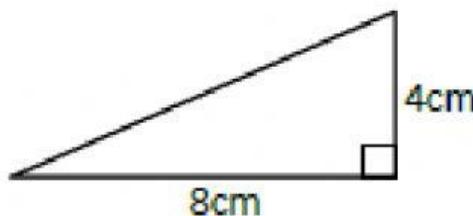

Work out the area of the following triangles by halving the area of the rectangle formed by its perpendicular sides. They are not to scale.

Example

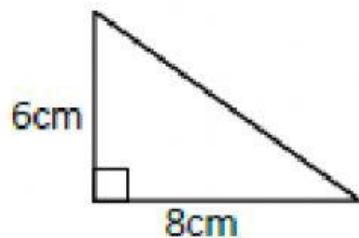

The area of the rectangle is  $8 \times 5 = 40 \text{ cm}^2$ .  
The triangle is half the size of the rectangle  
so its area is  $\frac{1}{2} \times 5 \times 8 = 20 \text{ cm}^2$ .

1)

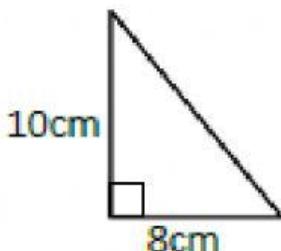

2)

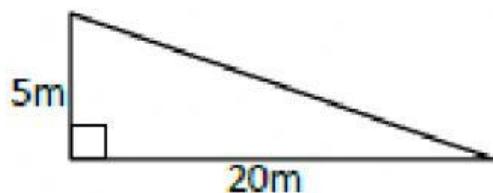

Area = \_\_\_\_\_ square cm ( $\text{cm}^2$ )

Area = \_\_\_\_\_ square cm ( $\text{cm}^2$ )

3)

4)

Area = \_\_\_\_\_ square cm ( $\text{cm}^2$ )

Area = \_\_\_\_\_ square m ( $\text{m}^2$ )

*Handy hint:*

*The formula for the area of a triangle is  
 $\frac{1}{2} \times \text{base} \times (\text{perpendicular}) \text{ height}$*
