Math QTA Worksheet

"Missing numbers"

Objective: To find the missing numbers to complete the number statements.

Instructions: Each set of number statements has a different missing number. Work out the 4 missing numbers.

a. $4 + \square = 5$

$\square + 4 = 5$

$5 - \square = 4$

$5 - 4 = \square$

$\square = ?$

b. $5 + \square = 7$

$\square + 5 = 7$

$7 - \square = 5$

$7 - 5 = \square$

$\square = ?$

c. $\square - 4 = 6$

$\square - 6 = 4$

$6 + 4 = \square$

$4 + 6 = \square$

$\square = ?$

d. $\square - 3 = 5$

$\square - 5 = 3$

$5 + 3 = \square$

$3 + 5 = \square$

$\square = ?$
