

This is what you wrote about how you usually celebrate Eid.

Change “we are celebrate” to “we celebrate” because celebrate is a verb. The other sentences are really good. You used 5 adjectives (every, delicious, new, colourful, good).

We are celebrate Eid al Fitra every year for my family. I make delicious food and share it with some people for my Eid .Before Eid I buy new Colourful clothes every year for my family becuse my family like colourful clothes .People visit their relatives and having fun. Present and good wishes are exchanged throughout the day.

- **New eTrackr personal target to improve speaking fluency and word order.**

Writing activity for a speaking task

I would like you to type some sentences about this year’s Eid celebration at your house. Use the **past simple tense** for example: I celebrated and some use some really nice adjectives. Try to make 2 paragraphs and there should be 3 or 4 sentences in one paragraph. Start this writing when Eid finished.

In class you will read this to someone confidently, slowly and clearly.
