

1. Completa cada esquema para descomponer los números en árboles de factores.

$$225 = \times \times \times$$

$$225 = \times$$

$$64 = \times \times \times \times \times$$

$$64 =$$

2. Realiza divisiones sucesivas para descomponer cada número en factores primos.

a. 525 |

$$525 = \times \quad \times \quad \times$$

b. 468 |

$$468 = \times \quad \times \quad \times$$

$$525 = \times \quad \times$$

$$468 = \times \quad \times$$
